Dear Mr. Weisberg:

Just a brief note to let you know I believe you did an excellent job as usual on the Jack McKinney show Friday. Indeed, you have such a knack for expressing yourself on these important issues that I couldn't believe four hours went by. I also very much enjoyed talking to you on the phone the other day, and I am most enthusiastic about Whitewash II — which work I will not mention to anyone until you make your formal announcement. I mentioned to Vincent the idea of more concisely expressing himself, and he said he thought that good advice.

The main reason I write this is to assure you I will send you tapes of the three shows — 2 with McKinney and one with Burke — but I feel they are so excellent I should first like to make copies to save them for my tape library. Thus if you are not in a hurry I will arrange to do that before I send them to you. But if for any reason you need them right away, please do not hesitate to inform me, and I will send them immediately.

One other thing, I have always been interested in geese, and I am most impressed with your concern for them.

Sincerely,
Tom Katen
